MACHAKOS UNIVERSITY & HUAWEI
presents
(Huawei Certified ICT Associate) Training

HCIA certification validates the knowledge and skills required for basic configuration and maintenance of small to medium-sized networks.

The HCIA curriculum includes, but is not limited to the following:

- Network fundamentals
- Basic connection methods of popular networks
- Basic network construction
- Troubleshooting of common network faults
- Installation and commissioning of Huawei routing and switching devices

With HCIA certification, you demonstrate (1) a basic understanding of small and medium-sized networks, including general network technologies, and (2) the ability to assist the design of small and medium-sized networks, and implement the designs using Huawei routing and switching devices.

With engineers who are HCIA certified, enterprises are able to construct simple networks and integrate voice, wireless, cloud, security, and storage technologies into their networks in order to support a variety of applications.
